

# WELCOME TO OUR BACKYARD!

Please enjoy it with respect.

Sasquatch and Partners recognize the privileges of all visitors to the West Country, as well as the benefits visitors provide to the local economy.

Your presence in the headwaters of the North Saskatchewan and Red Deer River watersheds means that your actions may affect water supplies which are important to a large part of Alberta's population.

Sensitive natural landscapes can be easily damaged by overuse, particularly in wet conditions. Please be aware of this and use appropriate judgement when camping and travelling.

Enjoy the forests, foothills and mountains connected by the rivers, streams and lakes of the West Country, but please enjoy these beautiful landscapes with respect so that others may experience them tomorrow.
