

TOWN OF SUNDRE

Greenwood Campground

Located on the west bank of the Red Deer River, two blocks south of the 4-way stop, the Town of Sundre owns and operates Greenwood Campground.

The campground is well treed and separated from the town by a grassed berm; however, it is still easy walking distance to all shops and services. Facilities in the campground include: 1 full service site, 18 powered sites and 12 un-serviced sites, all with picnic tables and fire pits. There is a washhouse with toilets and hot showers, tap water available throughout, a sani-station, playground, cookhouse with stove and a day use area.

The campground is open for the May long weekend and usually closes following the September long weekend. Camp hosts reside in the campground during the season and fill the sites on a drop in and reservation system.
